Dalian University of Technology — Bachelor of Economics in Economics · 2023–2027 (expected)
Average grade 87.3/100 · Top 15%

Academic exchange · Xiamen University — September 2024 – July 2025 · Economics

Research & publications

Stock Index Option Pricing Based on the BS-XGBoost Hybrid Model: Evidence from CSI 300 and SSE 50 Index Options
Lixing Tan (2026). *Advances in Economics, Management and Political Sciences*, 267, 181–188. DOI: 10.54254/2754-1169/2026.33880

A hybrid residual correction approach: Black–Scholes provides the baseline, and XGBoost learns the remaining pricing error. The study uses 2023–2024 CSMAR daily data and evaluates performance on CSI 300 and SSE 50 index options.

Big Data-Driven Quantitative Investment Strategy — April–May 2026
Studied asset pricing, portfolio construction, and risk–return analysis. Applied descriptive statistics, portfolio analysis, and Fama–MacBeth regressions to investigate equity factors and investment strategy performance. Completed a research report and final presentation.

Industry experience

China Construction Bank · Nanchang · General Administration Department Intern · JUL–AUG 2025

Supported document classification and digitization, maintained administrative records, and assisted with internal communications and meeting coordination.

Chow Tai Fook Life Insurance · Hong Kong · Intern · MAY–JUL 2025
